👤 Profile

Recent MCA graduate with hands-on experience in MERN stack development, showcasing a project on GitHub and completing a freelance project focusing on problem-solving. Eager to apply skills and contribute to dynamic teams, while continuously learning and growing in the field of software development.

💼 Work Experince

Freelance MERN Stack Developer

Project: Loan Management System

- Implemented a comprehensive Loan Management System utilizing the MERN stack, encompassing **MongoDB, Express.js, React.js, and Node.js.**
- Utilized **JWT** authentication for secure user authentication and authorization. Designed and developed **RESTful APIs** to handle data exchange between the frontend and backend.
- Collaborated closely with stakeholders to understand project requirements and deliver solutions tailored to their needs

💻 Projects

Employee Management

- Built a robust Employee Management System using **Node.js, Express.js, MongoDB, HTML, CSS, and Bootstrap.**
- Incorporated **JWT authentication** to ensure secure user access and authorization.
- Enabled image uploading functionality to allow users to upload employee profile pictures.
- Utilized MongoDB as the database to store and manage employee information effectively.
